## Smart Move® Rotators

In addition to simple bi-directional design rotation, the Smart Move® offers an array of individual gobo movements ideal for a broad range of applications without the need for a control board. The built-in, pre-programmed micro-processor provides the "smarts", while the rotary switches and speed control dial allow the user to easily set the desired effect and speed.

### Smart Move® Rotator

The Smart Move® Rotator has a robust functional design that delivers a quiet, reliable performance. The rotator can be a stand-alone unit using only AC power or an addition to scrollers, foggers, and other DMX accessories.

- 19 Pre-programmed Effects or Design-Your-Own
- Smooth Quiet Operation
- Simple Controls
- Infinitely Variable Speeds from 0-21rpm
- Versatile – Almost Any Gobo Type
- CE and FCC Compliant
- Made in the USA

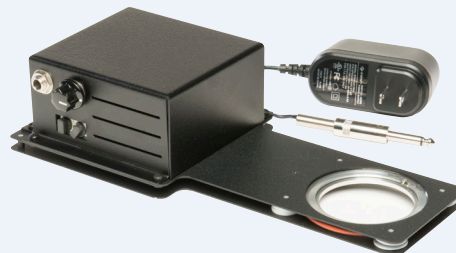

### Simple Single™ Rotator

- Variable CW/CCW Rotation Range from 0-21 rpm
- Holds 1 "B" Size Metal or Glass Pattern
- 1/4" Audio Jack for Reliable Power Connection
- Powered by a 24V, 600mA AC Adapter
- CE and FCC Compliant
- Made in the USA

### Smart Move® DMX Rotator

This rotator provides all the features of the Smart Move®, plus DMX Control and Indexing.

### Smart Move® JR. Rotator

This rotator provides all the features of the Smart Move® and is compatible with an ETC Source Four Jr. fixture.

### Smart Move® JR. DMX Rotator

This rotator provides all the features of the Smart Move® DMX and is compatible with an ETC Source Four Jr. fixture.

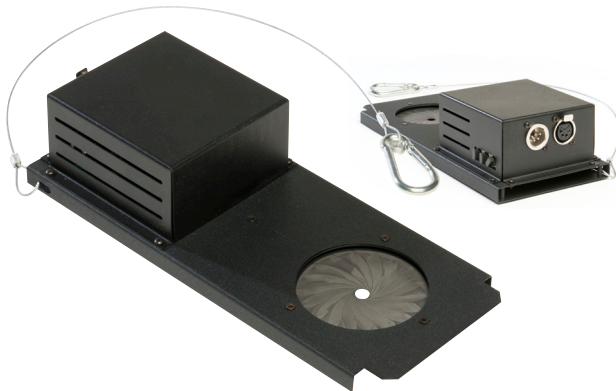

## Smart Move® Vertical Rotator

- 17 Pre-programmed Effects
- Quiet, Reliable Operation, Easy Gobo Changeout
- Variable Speed with ¼"-1½" Variable Dwell
- Holds a Single Metal, B/W, or 1-Color Glass Gobo
- Black, Powder-Coat 18 Gauge Steel
- Powered By a Rugged 24V, 60mA AC Adapter
- Fits ETC Source Four and Altman Shakespeare
- Patent Pending
- CE and FCC Compliant
- Made in the USA

## Smart Move® Vertical DMX Rotator

Provides all the features of the Smart Move® Vertical plus DMX control and indexing.

## EZ Iris

The EZ Iris gives complete control over the beam spread of many Ellipsoidal fixtures. It provides smooth, quiet, dependable operation at an affordable price.

## Smart Color® Pro Scroller

Robust, functional design comes with adjustable mounting tabs, pre-installed heat-deflecting Gel Shield, and local or remote fan speed control to fit the needs of any production.

- Smooth, Quiet Operation
- 18 Gel Frames Standard; 24 Gel Frames Optional
- Self-Tensioning, Spring-Loaded Gel Strings are Easily Installed from the Front
- Variable Speed, Single Fan Cooling System with Local or Remote Speed Control
- Full LED Display
- Rugged and Lightweight
- Ideal with Ellipsoidal, Fresnel and PAR Fixtures
- Built in the USA

## MXR 2 Color Mixer

MXR 2's innovative color selection and frame sequence maximizes color-mixing capabilities and eliminates nightmare color changeovers between shows. The patented design provides a rugged, lightweight unit with smooth, quiet color transition. Absolute color control is available at a very affordable cost.

- Over 500 Industry Recognized Colors Available Through the Patented 2-String Color Mixing Capability
- Pre-Installed UV/IR Deflecting Gel Shield
- Adjustable Mounting Tabs
- Variable Speed, Single Fan Cooling System with Local or Remote Speed Control
- Direct Drive 4-Motor System
- LED Display with Simple, Multi-Feature Programming
- Rugged and Lightweight

## Right Arm® Pan & Tilt System

The Right Arm® makes it simple to add pan and tilt capabilities to a wide variety of static lighting, video and projection devices. The patented design is cost-effective, dependable and easy to use. Quiet, accurate, user-defined movements and repositioning capabilities from the lighting console provide the reliability and flexibility needed to use one fixture for multiple applications.

- Smooth, Quiet Operation
- Torque: Pan - 5 Foot-Pounds Average  
Tilt - 10 Foot-Pounds Average
- Range: Pan - 300° Tilt - 270° User-defined
- Speed: Pan - 180° in 6 Seconds  
Tilt - 180° in 6 Seconds
- Full LED Display with Simple Multi-Feature Programming
- DMX Control and Indexing
- Power Consumption: 50W
- Patented Design
- CE Rated

## Right Arm® Half Coupler Kit

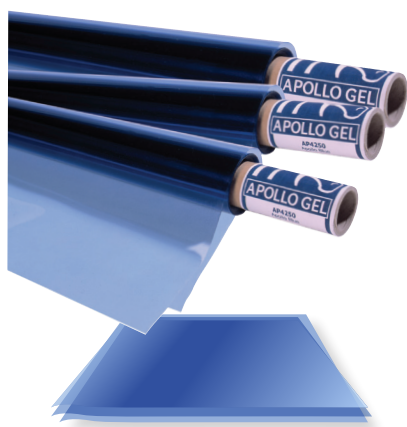

The sleek and functional design of the half coupler allows for quick and easy installation without damage to truss or pipes. Once installed, additional tools are not needed to hang the Right Arm®.

# COLOR FILTERS

Apollo gel color filters help create mood, emotion and atmosphere by changing the color and quality of light. The filters are available in a palette of solid colors, color correction and diffusion textures in addition to a variety of sizes and products including sheets, rolls, strings, tubes and wraps.

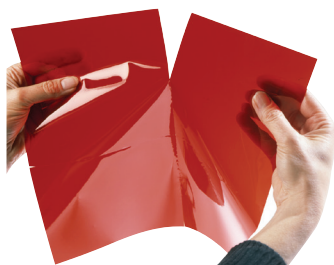

The filters are designed to meet the specific demands of the lighting industry. They are made from a heat resistant polyester material that is highly durable and resistant to punctures and tears. The dye is added through a double coating process that creates an optically clear color that will not scratch. The filters are consistent from batch to batch and provide superior transmission of color.

## Apollo Gel/Color Filters

A palette of close to 150 color, color correction and diffusion filters will help you color the world.

- 20" x 24" Sheets or  
2' x 25' Rolls

## PerfGel™

No more measuring and cutting is required with PerfGel™. Easy-to-tear perforations, cut to your specifications, on a 20" x 24" sheet will save time and labor costs. Apollo PerfGel™ yield diagrams are available on [ApolloDesign.net](http://ApolloDesign.net)

## Gel Shield

A gel shield helps extend the life of gel by reflecting infrared energy. This prevents the gel from absorbing IR energy as heat. The shields are ideal for use on fixtures 1,000 watts or less. Gel Shield sizes are available on [ApolloDesign.net](http://ApolloDesign.net)

# COLOR FILTERS

## Gel Strings

The gel string allows multiple colors to be easily and inexpensively changed from one production to the next.

- Roll of 18 Gel Filter Colors Assembled and Ready to Use

## Gel Tubes

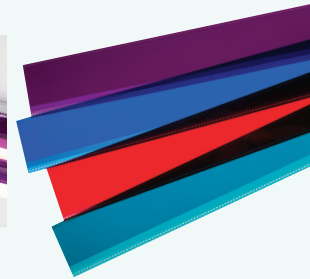

Gel tubes can add virtually any color to fluorescent lighting. The color filter is inserted into a clear polycarbonate tube, complete with end caps. The fluorescent light then slides inside the tube and is ready for installation. The tube will also protect from shattered glass if the lamp is ever broken. Multiple tubes can be used to create an endless palette of colors.

## UV Gel Tubes

Protect fabrics, painting and documents with UV filtering polycarbonate tubes.

Gel color can be included to add virtually any color in addition to the UV protection.

## GelWrap™

GelWrap™ is a cost effective way to add virtually any color to fluorescent lighting. The patented design features scored seams which shape the gel into a triangle that can be fed and "locked" around the fluorescent tube without removing it from the fixture. Storage and shipping costs are minimized since GelWrap™ is shipped and stored flat.

Gel Tube and GelWrap™ Sizes		
T5	½"x 48"	12.7mm x 1.219m
T8	1"x 48"	25.4mm x 1.219m
T12	1½"x 48"	38.1mm x 1.219m

## Gel Cabinet

The hand-crafted Baltic birch gel cabinet provides attractive and convenient storage for gel sheets.

- 12 Sliding Shelves  
Each Hold Up to 50 Sheets

- 24½" wide x 25½" deep x 20½" tall
- Optional Base Allows Portability
- Assembly Required

# COLOR FILTERS

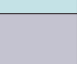

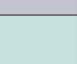

## Dichroic Filters

Dichroic filters add color to the world by projecting dramatic rich saturated colors. Dichroics are a perfect way to achieve high transmission and consistent color definition. The filters are available in a palette of solid colors, frosted colors, multi-color patterns and textured glass.

Dichroic filters are designed to meet the specific demands of the lighting industry. With minimum heat absorption, dichroic filters are designed to not crack, distort or fade from exposure to high power light sources. The multi-color patterns are hand-made by our expert technicians and each dichroic filter is custom cut-to-size.

## Frosted Dichroic and Glass Filters

Frosted Dichroic and Glass Filters provide both color and diffusion in one filter. Light or heavy frost can be added to any of the textured glass or colors in the palette.

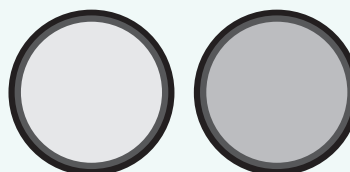

*Light Frosted Only*

### Frosted Dichroics

- Diffuse or Soften the Edge of Projected Light
- Ideal for Permanent Installations in Architectural Applications
- Available in Light Frost, which is Frosted on One Side

### Frosted Glass

- Available in Light and Heavy Frost
- Heavy Frost is Double Sided, Light Frost is Single Sided

## Dichroic Kit

The kit provides a sample of each stock dichroic color.

# COLOR FILTERS

## Crushed and Enhanced Crushed Dichroic Filters

Crushed and Enhanced Crushed Dichroic Filters are multi-color patterns, hand-made from small chips of dichroic glass. A Crushed Dichroic mixes small amounts of white light within the colors. An Enhanced Crushed Dichroic does not project any white light.

# GOBO COLLECTION

Apollo Design is the world's leading innovator, manufacturer and distributor of gobos. We have created over 2.5 million gobos since our establishment in 1992 and we maintain a collection of over 3,400 gobo patterns.

Custom gobos are the bedrock of Apollo Design and the dedication we have for producing custom patterns is fundamental to our company. Each gobo is unique and our commitment to the customer, attention to detail and focus on quality never waivers.

We have an equally strong commitment to helping the earth stay clean. Since 2007, our gobos have been produced using a clean laser manufacturing process that eliminates over 1 oz. of toxic chemical waste per gobo.

## Gobo Ordering

Before you place an order with your authorized Apollo Design dealer, answer these questions.

- 1. What date do you need your gobo?** Add a couple days to allow for unforeseen delays such as shipping.
- 2. What is the brand and model of the fixture your gobo will be placed in?** Different fixtures have different gobo sizes. For example: "A", "B", "M".
- 3. Is your pattern a custom pattern or standard pattern?** If custom, the artwork will need to be submitted 100% the size of pattern.
- 4. What do you need?** Your dealer can explain the advantages of each medium: Metal, SuperResolution®, PrintScenic® or ColourScenic®.
- 5. How many gobos are needed?**

## CUSTOM GOBOS

Transform a venue from ordinary to spectacular — and impact the overall feel of your event or project, and the mood of your guests with Custom Gobos by Apollo Design®.

Project your Custom Gobo images on walls, floors, ceilings or exterior of buildings for a memorable experience.

Combine Apollo gobos to create a unique canvas that reflects the theme of the event or production. A corporate logo on the wall behind the podium and the product slogan on the stage floor creates an impressive effect that will be remembered by attendees. In theater and architectural projects there are no limitations.

## APOLLO WEDDING TEMPLATES

Create memorable custom wedding gobos with Apollo's wedding templates. Personalize wedding receptions by displaying names and the wedding date in lights. Bring the wedding colors into play by adding an Apollo Gel color. Personalizing a custom gobo can be done in three easy steps by using the Apollo custom wedding templates.

Creating a Custom Wedding Gobo is Easy

- Select a layout (wedding/monogram number)
- Select a font (using the font number)
- Supply the details (names, dates, fixture, and quantity)
